25X1 1. In early October 1953, the Designing Office for Industrial Construction Berlin I, located at 1 Am Foellnischen Park, Berlin SO 36, was working on reconstruction plans for the Auschwitz power plant. This plant previously supplied electric power to the chemical plant of the I.G. Farben concern at Auschwitz and, except sections which had been re-equipped with machines from the power plant at Berlin Klingenberg, was completely dismantled by the Soviets after the war. Although this reconstruction project was ordered by the Poles, the records were kept in Moscow which was also given as location of the pertinent courts.

2. The power plant was projected with an installed capacity of 200,000 KW with the individual turbines having a capacity of about 25,000 KW. The essential installations planned to be imported from western countries
